

Trimble Perspective

Version 2.1.2

May 2021

These Release Notes describe the new features and changes available in this release of the Trimble® Perspective software.

Enhancements

- **Units:** When the Japanese language is selected only metric units are allowed.
- **Disconnect:** Improved the disconnect function to only work when tapping directly on the word **Disconnect**.
- **Measurements:** Improved the display of measurements.
- **Measurements:** Added distance display on single point measurements.

Resolved issues

- **Crash:** Resolved an issue where a corrupted scan file could prevent the project from opening properly.
- **Display:** Resolved an issue where **EI** was displayed instead of **Z** when using the **X, Y, Z** display option.
