Version 2025.10 Release Notes

Introduction

These release notes describe the features and enhancements that are new in version 2025.10 of the Trimble® Perspective® software. For further information, visit www.trimble.com/support.

Installation Restrictions

Firmware version 1.1.1.0263 supports all X9 instruments with 8990 and 8991 serial numbers. Customers should upgrade X9 instruments running older firmware versions 1.1.0.0241 or 1.0.5.0392 to benefit from the latest filtering and cybersecurity updates.

Software Requirements

X9 customers running firmware version 1.1.0.0241, 1.0.5.0392, or 1.1.1.0263 should install Trimble Perspective version 2024.10.2609 or greater to ensure compatibility.

System Requirements

- Operating system: Microsoft® Windows® 10, 11 (64 bit)
- RAM: minimum 8 GB
- Graphics support: OpenGL 4.4 or higher

Software Warranty

This version of Trimble Perspective is available to:

- Perpetual license users whose warranty expiration date is **January 1, 2025** or later. *Note: If your perpetual license warranty expires prior to this date and you proceed with the installation, licensed features will not be included.*
- Subscription license users whose subscription is currently active.

If necessary, you can contact your distributor to purchase a warranty extension or renew your subscription. In the Perspective menu, select About to view your warranty or subscription expiration date.

New Features and Enhancements

Description	New or Enhanced	Feature Overview	Benefit/Comments
Limit Box Updates	Enh	Updates include a redesign of the limit box user interface, larger slider bar, ability to restore the previous limit box, and export options as LAS 1.4 or E57 (unstructured)	Ease of use, data interoperability
Refinement Links in TDX Export	New	Registration refinement links created in Perspective are included in the TDX export. Once imported to RealWorks, these refinement links will be present in the Adjust Registration tool.	Data interoperability
LAS 1.4 Export	New	LAS 1.4 can now be selected during export.	Data interoperability
E57 Export	Enh	Updated the version of E57	Data interoperability
End User License Agreement	Enh	An updated EULA is now included during installation of Perspective 2025.10. This agreement aligns with all other Trimble software.	Legal consistency
Notification Icon	Enh	Change to a bell icon for the Notification menu. The previous Clock icon moved to the limit box user interface for loading a previous limit box.	User interface

Resolved issues

- **Annotations:** potential workflow leading to incorrect annotation text when reopening an existing project
- **Area Scan Display:** hiding area scans from the station view did not take effect until the view was rotated
- **Export Warning:** added a warning on missing space for temporary files
- **Full Screen Display:** minimizing and maximizing Perspective from the Windows taskbar leads to the software covering the taskbar
- **Language Support:** potential crash when using non-Latin text in project name
- **Measurements:** updated text to state "Slope Distance" when measuring in 3D view or station view
- **Move Database:** project image and company logo lost after moving the Perspective database location
- **Precision Points:** precise points were converted to annotations when reimported to Perspective
- **Subscription Login:** potential freeze while signing in
