

Workflow Matrix

Trimble Business Center v2024.10 Software

Editions

Each Trimble® Business Center (TBC) Edition is designed to support a set of related workflows:

- **Viewer (Unlicensed):**
Import + review field data, view projects, + export to Trimble field devices + software.
- **Field Data Edition:**
Export third-party field data, perform basic CAD functions, complete data quality control, + work with level data.
- **Surface Modeling Edition:**
Basic point cloud management, create + edit surfaces + alignments, cut/fill maps, + earthwork reports.
- **Survey Intermediate Edition:**
GNSS post-processing, network + traverse adjustments, site calibrations; work with background images, labels, + dimensions.
- **Survey Advanced Edition:**
Work with Trimble VISION™ data, create plan sets, process cadastral data, leverage full COGO + corridor routines.
- **Site Modeling Edition:**
Convert + elevate 2D geometry into 3D for field operations; cleanup project data.
- **Site Construction Edition:**
Compute site mass haul + site takeoff computations, linear quantities, layer depths, + material volumes.
- **Infrastructure Construction Edition:**
Parametric intersection, interchange, + ramp designs with corridor mass haul quantities + volumes.

Blue text denotes new or enhanced features in v2024.10

Workflow / Feature	Viewer	Field Data	Surface Modeling	Survey Intermediate	Survey Advanced	Site Modeling	Site Construction	Infrastructure Construction
Basic Construction Cloud Workflows: WorksOS and WorksManager	X	X	X	X	X	X	X	X
Coordinate system management: Utilizing hundreds of coordinate systems	X	X	X	X	X	X	X	X
Import Third Party Files: Shapefiles, IFC, Sketchup, SiteVision, NGS Data Sheets & 12D	X	X	X	X	X	X	X	X
Export Third Party Files: Shapefiles, Sketchup, SiteVision, Google Earth®, TopoDOT & 12D	X	X	X	X	X	X	X	X
Utilize Online Mapping Services: Trimble MAPs Background Map, WMF and WMS	X	X	X	X	X	X	X	X
Collaborate with Customers: Quadri Connector & Trimble Clarity & Trimble Reality Capture Platform Service (TRCPS)	X	X	X	X	X	X	X	X
Simplify Data Exchange in TBC: Connected Workspace & Trimble Sync Manager & Import Point Clouds into TRCPS	X	X	X	X	X	X	X	X
Run Basic CAD Features: Feature Code Processing, Xref drawings & IFC Point Support		X	X	X	X	X	X	X
Custom Coordinate System Design: Implement Local Systems and Site Calibrations		X	X	X	X	X	X	X
Create and Edit Roadway Designs: Road Alignments and Road + Site Surfaces			X	X	X	X	X	X
Post-Process GNSS Base Less Data: Trimble CenterPoint® RTX				X	X	X	X	X
Generate reports: Custom and ALTA Precision Reports				X	X	X	X	X
Data Processing and Adjustments: Total Station, Leveling data and GNSS Adjustment Variance Grouping				X	X	X	X	X
Simplified COGO Routines: Legal Description Writer, Single + Double Proportion and Parcel Map Check routines					X	X	X	X
Expand or Customize Existing Workflows: Merge Survey Projects and Macros Creation					X	X	X	X
Enhanced 3D View Tools: Cutting Plane View and Plane Manager					X	X	X	X
PDF Generation and Editing: Georeference & 3D PDF Creation					X	X	X	X
Construction Site Data & Prep: Side Slope Design, Vertical Designs, Machine Data and Project Cleanup Tools						X	X	X
Corridor Simplification: Boring Creation and Parametric Design Tools							X	
Site Improvements: Mass Haul Analysis and Custom Takeoffs							X	
Mass Haul Designs: Importing, Creation, Analysis and Export (Including TILOS)								

Workflow Matrix

Trimble Business Center v2024.10 Software

Modules

Each Trimble Business Center (TBC) Module is designed to support a group of workflows around a single topic. The modules are add-ons to an edition.

- **Aerial Photogrammetry Module:** Process + create deliverables with Trimble + third-party UAS data in TBC + UASMaster.
- **ANZ Toolbox:** Use a variety of commands that support 12d Model and Australian Asset Design and As Constructed (ADAC) workflows.
- **Drilling Piling Dynamic Compaction Module:** Create drill plans + reports for Trimble DPS900 Machine Control Systems.
- **GIS Module:** Seamlessly integrate GIS data from Trimble Access™ + TerraSync™ software into TBC + connect to external GIS databases.
- **Mobile Mapping Module:** Process, register, + manage MX9 Mobile Mapping data; work with MX hardware calibrations.
- **MM MX9 Laser Correction Module:** Account + adjust for multiple-time around (MTA) laser effects in the MX9 Mobile Mapping hardware.
- **Monitoring Module:** Define movement alarms, visualize displacements in 3D, and create monitoring reports from any survey data.
- **Scanning Module:** Register + colorize SX10 + X7 data; classify regions, extract features, + create deliverables from SX10, X7, + 3rd party point clouds.
- **Tunneling Module:** Create + edit tunnel models for Trimble Access Tunnels + create customized as-built + geometry reports.
- **Utility Modeling Module:** Generate + visualize gravity, pressurized, + other utility runs in parametrical constrained trenches.

Blue text denotes new or enhanced features in v2024.10

Workflow / Feature	Aerial Photogrammetry	ANZ Toolbox	Drilling Piling Dynamic Compaction	GIS	Mobile Mapping	MM MX9 Laser Correction	Monitoring	Scanning	Tunneling	Utility Modeling
Advanced UAS Workflows: Orthomosaic & DSM Creation, 3D Point Clouds and Creating Orthorectified Oblique Imagery	x									
UAS Master Agnostic Support: Hardware and Software Support	x									
All ANZ Toolbox Workflows: Process and Manage ASPEC workflow, Create Chord Lines, Transform 3D Objects and more		x								
Drill Plan Workflows: Pile Plan & Reporting with Custom Pile Creation			x							
Feature Service Connections: Connect to Geodatabases, Retrieve GIS Schema and Define Features				x						
Mobile Mapping Batch Processing: Import, Settings, Run and Reporting					x					
Mobile Mapping Data Analysis: Pavement Condition Inspection, LAS Export, Split MX9 Runs and LIDAR QC Processing (MX50 & MX60)					x					
Mobile Mapper Enhancement: Adjust MTA for MX9 Laser						x				
Enhanced Monitoring Workflows: Create, Assign and Plot Displacement Charts							x			
Analyze Point Clouds: Advance Dynamic Sampling, Classification, International Roughness Index Reporting & Custom Feature Extraction								x		
Enhance Point Cloud Elements: Georeference, Extract Objects, Create Orthoimage and Drape Objects								x		
Point Cloud Import: TZF (TX and X Series), FARO and Industry Standardised Formats								x		
Tunnel Design: Create Corridor, Horizontal and Vertical Shaft Design, Import or Create Tunnel Shapes									x	
Tunnel Inspection and View: Design & As-Built Mesh, Inspection Map and Views									x	
Tunnel Monitoring and Reporting: Design Set-Outs, Create Undulation Report and Custom Reports									x	
Utility Analysis: Node Creation, Shape Customization, Pipe + Utility Network Connections and Takeoff Reports										x

Command	ANZ Toolbox
3D Object from Polygon & Surface	x
12da File Import & Export	x
ADAC Import & Export	x
ANZ Conformance Reports	x
ANZ Surface Tools	x
ANZ Data Investigation & Editing Tools	x
ANZ Convert to Linestring	x
ANZ Footing Adjust	x
ANZ Insert Legend Table	x
ANZ Inspect Line Nodes	x
ANZ Measure Geometry	x
ANZ Set Point Description	x

The ANZ Toolbox:

UPG, SITECH® CS & AllTerra™ are actively helping to improve Trimble Business Center (TBC) for our Australian and New Zealand users. As part of this, we are continually developing commands and enhancements for the Australasian market which can be installed as extensions to TBC.

The ANZ Toolbox module has been created to provide custom commands and tools that Australian and New Zealand users have requested, which don't currently exist within core TBC.

Disclaimer: Trimble reserves the right to change the licensing or make corrections to the program at any time through an update to Trimble Business Center and or a correction to this list.

No guarantees are implied and you should confirm licensing details with your Distribution Partner before purchasing.
